TetherView

Digital Bunker

- Reduces IT footprint
- Data never leaves your private cloud
- Fewer pieces
- Easier to protect
- Better performance
- Best security posture
- Eliminate the device threat

USE ANY DEVICE

USE ANY INTERNET CONNECTION

VIRTUAL DESKTOPS
VIRTUAL SERVERS
FIREWALL
SWITCHES
THREAT PROTECTION
SECURITY
BACKUPS
MONITORING
COMPLIANCE
MOBILE DEVICE DATA

WITHOUT TETHERVIEW

- Data is everywhere
- Desktops are relied upon for compute
- Many moving pieces
- Desktops are a huge threat
- Desktops hold data
- Impossible to know where your data is
- Very expensive to secure
- Impossible to stay compliant

WE MAKE AWS AND AZURE BETTER!

Our Multi Cloud Strategy:
- Reduces ingestion points
- Low latency routes to AWS and Azure

Without TetherView, each user device must connect to AWS.
With TetherView, there is a single connection point.

LIST OF CAPABILITIES

- Private Cloud
- Multi-Cloud
- Hybrid Cloud
- Virtual Desktops
- Virtual Servers
- Mobile Device Management

- Standby Desktops and Servers
- Business Continuity
- Disaster Recovery

- Cybersecurity
- Secure File Share and Collaboration (Sync)
- Security Operations Center (SOC)
- Security Information and Event Management

- Infrastructure Compliance
    - NIST 800-171, NIST 800-53
    - SEC, FINRA, NYDFS
    - HIPAA, HITECH
    - AICPA SOC
    - PCI DSS

✔ Compliance

✔ Security

✔ Easily Managed

✔ Comprehensive

✔ IaaS

✔ Cost Effective

✔ NIST Compliant

- Cloud Migration
- Help Desk Support
- Remote Monitoring
- Infrastructure as a Service
- Desktop as a Service
- Office 365
